Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I use my prepaid TracFone only for emergency use and the rate per min is already well above the rates of other cell companies. With all the new cell towers being built the rates should be coming down not up. We keep seeing increases but never a reduction. The FCC should be looking into what will reduce the rates to us not increase them.

I have listed my cell number on the correspondence but if you need to call me please use my home number as not to use us my prepay minutes.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,
